

SECTION 1 Occupational Health & Safety Policy

Occupational Health & Safety Policy

Emera Utility Services' (EUS) goal is to provide the highest practical standards of health and safety in order to reduce or eliminate work place injuries and illness and to develop and implement a program that promotes the principles of the Internal Responsibility System. To that end:

1. EUS provides a safe and healthy working environment for its employees, contractors and the general public.
2. All levels of employees at EUS work together to ensure the implementation of this policy. Safety knowledge is promoted at every opportunity to enhance public safety and prevent personal injuries and damage to property.
3. EUS ensures that health and safety considerations are an integrated part of the day-to-day planning and execution of work, and maintenance of tools, machinery, facilities and equipment.
4. All levels of EUS employees are responsible and accountable for creating a safe work environment and for adhering to safe work practices.
5. EUS employees and the contractors engaged to carry out work for EUS, have an individual responsibility to work and act safely at all times to ensure the safety of their co-workers and the general public.
6. All levels of EUS employees are responsible for taking action to eliminate or report all unsafe acts and conditions.
7. EUS will cooperate with, and encourage, customer participation in the safety program and the development and observance of safe work practices.
8. EUS will meet or exceed applicable safety legislation, regulations and manufacturers' standards, and ensure that the prescribed use of equipment and protective devices is followed.

SECTION 2 Environmental Policy

Environmental Policy

Emera Utility Services shares in the desire to enjoy the benefits of a sound economy in a healthy environment, and is committed to conducting its business in a manner which is respectful and protective of the environment and in full compliance with legal requirements and company policy.

In delivering on our commitment, we:

1. strive to make pollution prevention our first priority as we plan for and perform construction activities in the environment;
2. make environmental considerations integral to our decision making as we pursue value to shareholders;
3. work with employees and customers to promote efficient use of products and services associated with our business;
4. establish goals and objectives to improve our environmental performance;
5. develop, verify, and continually improve environmental management systems through strong leadership of management and employee commitment;
6. communicate with all stakeholders on our environmental performance in an open manner.
